COVER LETTER - Professional Characteristics - Personal Aims

As a proactive and dynamic professional, combining academic background with extensive variable experience in the aviation training and industry.

After 10 years of studying and working in different aviation companies and environments, I know that I am confident Pilot; with 393 hrs total flight experience, more than half of them as Commander, willing to follow new SOPs. Possessing a proven ability to work closely and effectively with the HT, CFI and others Instructors and staff to deliver a safe training flight environment and first class services to your trainees/customers. Passionate with flying and instructing! Extremely motivated and driven to succeed in aviation with a “can do” attitude! Committed to safety comes first - no EASA violations.

My last responsibilities included the supervision of flight operations department of FAS Rhodos Air AOC GR-032 in cooperation with “Flightplan Aircraft Management and Aviation Services” working there as Captain in PA28R-200, based in Chania International Airport, LGSA. Our operation was a private Air Taxi and Aerial Sightseeing, non-schedule flying with VFR from island to island.

I’m multi-tasked and also able to remain calm under cockpit pressure. I can fly both **PPL(A)** as well as **Night Rated** students at their first steps towards aviation and First Solo. Moreover, I guarantee both a) providing a high standard of students preparation through your training syllabus and b) achieving training time schedule based on a planned program. I am looking for a suitable Flight Instructor (A) Career position that offers me variety and the opportunity to develop both personally and professionally in such a demanding training operation, like yours. Also, it will allow me to be of a certain responsibility, creative and also productive in a General Aviation - Military environment that is competitive and dynamically fast developing like that of **AIR CLUB WEST GREECE**. With international outlook, I am setting new goals for myself and being able to undertake new lovely challenges I can be part of “West Greece” fly-out activities, future commercial developments and contribute to your success by providing excellent coordinated flight instructing services!
